## COMMUNICATION SYSTEM

### SYSTEM DESCRIPTION

The Bike2Bike system enables quick and easy communications between Riders, perfect for instructor to student training or simply to provide communications between two or more motorcyclists, Quad bikers, mountain bikers - the list goes on.

The complete system consists of:

1. Easy in Easy out communications headset
2. Belt fitted Junction box with volume control and Press to Talk Switch
3. Sturdy Sonic belt and radio pouch
4. Simple to fit/remote Handlebar Press to Talk Switch which enables the operator to transmit as safely as possible even when mobile.

The radio pack consists of Standard Antenna, Rapid charger, 1200mAh Li-Ion battery, Belt clip & strap, user manual. When the system is employed in a training environment a receive only headset is available for students.

The HYT TC-610 is an ideal choice for the bike2bike system, designed for rugged and difficult conditions with key features such as enhanced water resistant properties and a high power output, ensuring it can withstand harsh weather conditions whilst ensuring communications are crisp and clear even in built up areas or at distances a PMR446 radio simply cant match. The TC-610 also has a range of spares and accessories such as a 6-way multi charger, stubby antennas, spare batteries and car charger.
