

Sepura SRC Covert Terminal

Accessories Test Set

SONIC
COMMUNICATIONS

The SONIC Sepura Audio Ancillary Test Unit is designed to test a range of audio and RCU accessories, as used along with the Sepura SRC & SRH TETRA terminals, to enable the User to check their functionality.

The unit is powered by an external 240V AC mains converter supplying 12V.

With the exception of the DC input and receive earhanger sockets, all controls, indicators and input/test sockets are provided on the top panel.
